Re Atlanta teletype 4-25-68.

Latent fingerprints this case later identified as fingerprints of James Earl Ray, FBI #405942G, were searched all sections of single fingerprint file. In addition, Ray's fingerprints have been compared with latent prints in bank robbery section of National Unidentified Latent File and are being compared with latent prints in all current cases (both FBI and outside contributor cases). The comparison of latent prints in current cases with Ray's fingerprints will continue until his apprehension.

Atlanta's suggested lead to have all law enforcement agencies compare fingerprints of Ray against their unidentified latents is being considered and you will be separately advised.

Note: Division 6 is considering Atlanta's suggested lead as referred to above.
